Education

Sinhgad College of Engineering, Pune
B.E. in Computer Engineering

Aug 2024 – May 2027
CGPA: 8.47

Rajiv Gandhi Polytechnic Institute, Udgir
Diploma in Computer Engineering

Aug 2021 – May 2024
87.71%

Experience

Python Programming Intern - CodSoft (Remote)

Jan 2026 - Feb 2026

- Developed Python-based applications including a To-Do List, Calculator, and Password Generator as part of the internship program.
- Applied Python programming concepts, conditional logic, functions, data structures, and error handling to build functional applications.

Skills

- **Programming Languages:** Python, C++, SQL, JavaScript
- **AI/ML:** Generative AI, NLP, RAG
- **Web Development:** FastAPI, Flask, React
- **Databases:** SQLite, ChromaDB, PostgreSQL
- **Tools & Platforms:** Git, GitHub, VS Code
- **Concepts:** OOP, DBMS, OS, CN, DSA

Projects

 **StudySphere AI – RAG-Based Intelligent Study Assistant**

Jun 2026 – Jul 2026

Python, FastAPI, React, ChromaDB, Sentence Transformers

- Developed an AI-powered study assistant using Retrieval-Augmented Generation (RAG) for document-based question answering.
- Implemented PDF upload, text extraction, semantic search, embeddings, and context-aware question answering using ChromaDB and Sentence Transformers.
- Added AI-powered study features including document summarization, quiz generation, and flashcard generation using large language models.

 **HospitaX – Digital Hospital Operations Platform**

Jul 2026 – Aug 2026

Python, FastAPI, React, PostgreSQL, SQLAlchemy, JWT

- Developed a role-based digital hospital operations platform for managing staff authentication, attendance, hospital structure, and day-to-day operational workflows.
- Implemented JWT-based authentication, role identification, check-in/check-out attendance, and dedicated dashboards for administrators, doctors, nurses, receptionists, and housekeepers.
- Designed a work management workflow for administrators to assign tasks with priorities, due dates, locations, and instructions while enabling staff to track task status from pending to completion.

 **Student Management & Analytics System**

Jul 2026 – Aug 2026

Python, Flask, SQLite, Chart.js, OpenPyXL, Google OAuth

- Developed a full-stack student management platform with role-based authentication, student records, attendance tracking, and administrative workflows.
- Implemented Google OAuth 2.0, secure password hashing, student profile management, attendance monitoring, and automated detection of low attendance.

Certifications

- **AI Upskilling** - Qualcomm Academy
- **Python Essentials 1** - Cisco Networking Academy & OpenEDG Python Institute
